

K1

K1 friends have discovered that Yomogi is good for our body.

With this, we used yomogi leaves to make yomogi dango.

K1の子どもたちは、ヨモギが身体に良いことを知りました。

そのヨモギを使って団子を作りました。

Since we have learned that it is important to take care of one's body, we are now focused on many physical activities that makes their muscles stronger.

身体を大切にすることの重要性を学びました。現在、より強い身体をつくるために、身体を使ったアクティビティに取り組んでいます。

In Kindergarten, teachers are always reminding everyone to take care of their own belongings because their parents work hard to earn money to buy them. They also realized that they need money to buy things during their free play. They have ice cream and hamburger shop in the classroom. They are used to make money using paper and their products are made of recycled materials. With this, they got interested to experience "real buying and selling". When this idea came, we decided to sell lemonade and popo.

Through this experience, the children said, "I am so happy because their customer said it is delicious!" "Yehey! We have many customers."

The next day, we talked about expenses and profits. Some friends said, "We are disappointed because we worked so hard but earned only 2600 yen". Others express their appreciation that their parents are working so hard to provide their needs.

Now, we are talking about how to spend our profit. Since, everyone loves using origami to make many things. We have decided to buy Origami paper that we can use in Kinder. It was a nice experience and good opportunity for children to learn about the value of work, the value of money, and things around them.

K2

Before opening Lemonade and Popo shop, we practiced selling in class. We also prepared many things such as making signs, shops, and envelopes. We actually went to ask for pre order to AMICUS teachers and staff.
