

Amicus Kindergarten

Playing to learn. Learning to play.

JANUARY NEWSLETTER

Activity time

K1 friends have been learning the importance of food in our daily life. Most of them like eating curry so; we made our original "curry song". While learning the nutrition that we can get from each ingredient, they would always say "Curry 食べたい!". So, they chose five kinds of vegetables and chicken that they want to use for cooking their own curry.

Pottery

We tried Pottery for the first time. We asked the AMICUS pottery teacher Ms. Hasegawa to put them kiln (pottery oven). After that, we got their work and painted them. Then, we put them one more time in the kiln as the final step.

K2's first masterpiece is their Original Magnet!
